This [JobsInRockCounty.com](#) project is anchored in feedback gleaned from area employers, who expressed a (collective) desire to have a more comprehensive, single-source, online tool that can be used to augment their talent recruitment and retention efforts.

Designed to meet the needs of the human resources community; third party recruiters; and of course, prospective jobs seekers, [JobsInRockCounty.com](#) offers the following features:

- Value-Added Community & Workforce Information

[JobsInRockCounty.com](#) is a *free* service and is intended to serve as a talent recruitment and match-making tool for employers that have a physical presence within the greater Rock County and/or Stateline area. However, company registration and validation are required before any job postings can be uploaded into the system.

In preparation for today’s release, a small group of employers have been beta testing the site. To date, nearly 100 jobs – canvassing 16 distinct career clusters – are posted and ready for applicant use. Therefore, irrespective of job posting frequency or volume, employers are encouraged to visit and register their company at [JobsInRockCounty.com](#).
