## **Premier Beloit Employer Continues Experiencing Remarkable Growth**

*Company plans to fill nearly 100 vacancies by year-end*

**Beloit, WI** – As it increases its market share within the healthcare receivables industry, State Collection Service has announced additional plans to continue expanding in Beloit, solidifying its reputation as one of the City’s premier employers. In Beloit since 2001, State has witnessed tremendous growth, expanding its operations in the community three times in just over five years. It is expected that the company will add nearly 100 more positions in Beloit this year alone.

Company President, Tim Haag, is excited about deepening State’s relationship with the City and its residents. “The City of Beloit has consistently encouraged our growth over the past two decades. The community has been supportive of our ongoing hiring efforts and residents have played a pivotal role in allowing this to become our largest call center,” Haag stated.

The company will be holding a Harvest Festival Hiring Fair on Saturday, October 6 from 10a to 2p at its location in the Eclipse Center (600 Henry Avenue, Suite 21). Prospective applicants will be interviewed immediately and can meet current staff members to learn more about State’s culture of fun, family, and flexibility. Applicants will also have the opportunity to receive a pumpkin, with other family-friendly activities like face-painting available. Vince’s Hot Dogs will be serving complimentary refreshments to attendees.

### **About State**
